Office Action Summary	Application No. 10/711,371	Applicant(s) RADDIN ET AL.	
	Examiner Russell D. Stormer	Art Unit 3617	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the “series of brackets” on the first disc; the “bearing clutch;” the “third disc;” the “second independently rotating means;” the “one or more openings” in the second disc; the one “or more” outer discs (claim 8); and the “safety material” must be shown or the feature(s) canceled from the claim(s).

No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Art Unit: 3617

Specification

2. The abstract of the disclosure is objected to because of the word “means.”

Correction is required. See MPEP § 608.01(b).

3. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter.

There is no description of the second disc having openings as set forth in claim 7.

There is no description of there being more than one outer disc as set forth in claim 8.

There is no description of the second disc having a smaller diameter than the first disc.

See 37 CFR 1.75(d)(1) and MPEP § 608.01(o).

Claim Objections

4. Claims 15 and 16 are objected to because of the following informalities:

In claim 15 the term “had” should be changed to - -has- -.

In claim 16 a “pair of first discs” is claimed in line 5, but only one “first disc” is set forth in lines 6 and 7, making the claim unclear as to how many first discs are being claimed.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of claims 1 and 16, the “backside” is inferentially set forth and it is not clear which side of the cover this would be or how many backsides would be present.

The “first plate” of claim 14 lacks antecedent basis.

Allowable Subject Matter

7. Claims 1-19 would appear to be allowable over the prior art of record pending the correction of the objections to the drawings, the specification, and the objections and rejections of the claims, set forth in this Office action.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references show wheel covers and spinner assemblies.
